## New Fire House To Be Along Rock Road

Authorization was given Monday night for negotiations to begin for purchase of a tract on the old Beckman farm property along Rock road on which to build a new fire station for West Granite.

Granite City council members accepted the recommendation of the Fire and Water committee, headed by Ford Johnson, a former fireman, to build on the new site rather than tear down the present West Granite station and rebuild on the Cayuga street location, where an additional 10-foot strip of property would be needed.

Johnson said appraisals of the property had been obtained and would be given to the city attorney and the architects to begin negotiations. The appraisal figures were not disclosed.

An ordinance revising the lease of the site at 24th street and Madison avenue for the new main postoffice building was approved. The 20-year lease of the 241x254-foot tract on the city-owned block, about 1.4 acres, was scheduled on Jan. 21, 1961, to begin upon completion of the building. The ordinance Monday night updated the lease.

The federal government is to pay the city \$300-a-year for the property lease.

**County-Zoning Agreement**  
Alderman Donald P. Farnley, chairman of the Planning and Zoning committee, reported the county zoning board has agreed to follow Granite City's decision in exercising controls over de-

velopments in area's within 1 1/2-mile of the city limits.

In compliance with the modernization of city building and inspection codes, the city now is authorized to control the border developments. "If we reject a project as unsuitable to meet our standards, the county also will reject," he said.

Partney said he and representatives of the City Plan Commission met last week with county and Nameoki township officials, and that the city will be confronted with the possible future development of sewage treatment plants being planned for a widespread sanitary sewer system in Nameoki township.

Technicians in the proposed new city plumbing code are developing its presentation to the city council, it was explained by the City Atty. George F. Fiofio Jr. to council members and a delegation of plumbing contractors and plumbers.

**Back To 1933 Code**  
Fiofio said the plumbers want several items as contained in the 1933 code which may be developed. The state code that already has been approved by the council, the proposed ordinance would set a license fee and a performance bond for contractors.

Fiofio added that he is conferring with the legal department of the Illinois Municipal Association to work out the proper method.

The contractors accepted a compromise by Partney that they meet again with the City Plan

committee in order to reach an agreement on changes to be made in accordance with state regulations.

In miscellaneous business, the council approved a zoning change for business purposes in the St. Paul's Nursing Home, Belleville, where he had been for two years. He lived here with Mr. and Mrs. Christoff in 1950-51.

Mr. Miller, who was born in New York City and had lived in Belleville for 63 years, was a retired molder for Enterprise Foundry in Belleville and worked there 50 years.

He was a member of the Knights of Columbus, St. Mary's Catholic Church, Belleville, and was a 50-year member of Local 182 of the Molders' Union.

His wife, Helena, preceded him in death 28 years ago. Other survivors include, three sons; Joseph Jr., Cahokia, and Frank and Charles, Belleville, and three daughters, Mrs. Robert (Emma) Fredricks, Mannasset, N. Y., Mrs. Charles (Lucille) Rink, Mercurio, Belleville, and Mrs. Charles (Rosemary) Burke, East St. Louis, 13 grandchildren and seven great-grandchildren. Services were held this morning at St. Mary's Church in Belleville.

**Rescue, Paint Complaints**  
Complaints of a residue falling in the vicinity of the Nestle Co. plant and of house paint discoloration Sunday night also were made at the council.

Alderman Clyde Boyd urged City Atty. Fiofio to speed up the testing of material he had submitted, taken from the area, to determine if it was coffee grounds. "The people say they can hear it striking their windows at times and it is a nuisance."

Alderman Edmund Bartosik reported he had received several complaints of paint on homes discolored in the East Granite area. "Those people are going to have to repaint their homes again," he added, calling for council members to step up activities toward air pollution abatement.

Several aldermen said they would accept an invitation to participate in an SWU-sponsored conference on "Local Legislators and Intergovernmental Relations" to be held at Sunset Hill Holiday Inn on Feb. 28.

**4th Degree Conferral**  
Changed To Belleville

Exemplification of the John F. Kennedy memorial class of the fourth degree of the Knights of Columbus will be held at St. Mary's parish hall, Belleville, instead of in the East St. Louis K. of C. building, it was announced at a meeting last night by Marvin Boyer, faithful novice of the local fourth degree assembly.

The degree will be conferred upon candidates from southern Illinois on April 19. Deadline for filing applications is March 15. A formal dinner will follow at Fischer's restaurant, Belleville. The formal dance usually held here after the dinner was canceled because of the traveling distance involved.

It was announced that participation by the local assembly will be dedicated to the late Joseph Kukarada.

During the meeting Kenneth Wood continued his series of talks on "Communism and You," based on materials from the Wachenbut Corp. A talk also was presented by Rev. Sylvester Mrook, O.P.M., faithful friar.

**Ruth McCarty's Father, Rector Smith, 77, Dies**  
Rector H. Smith, 77, of St. Anthony, father of Mrs. Ruth McCarty, 2101 Glen drive, a nurse for the Granite City schools, died at 5:30 a.m. yesterday at St. Elizabeth Hospital. Mr. Smith suffered a stroke three months ago in Florida and had been a patient in the hospital for two and one-half months.

A retired farmer, Mr. Smith had lived in St. Anthony all his life and was a member of Masonic Lodge 109 and of the Order of the Eastern Star there.

Besides Mrs. McCarty, he is survived by his wife, Mary Smith; a son, Ralph Kennedy, Atlanta, Ga., and six grandchildren.

An obituary is given elsewhere in this issue.

**Parking Lot Accident**  
The left taillight and rim on a car owned by H. J. Dickerman, 4729 Warnock avenue, was struck Monday afternoon by an auto being operated in reverse on the Vaughn pharmacy parking lot in the 1800 block of Delmar avenue. The auto left, but through a license number was traced to a resident in the 2100 block of Lee avenue. No charges were filed, police said.

## Joe Miller, 84, Dies, Mrs. Christoff's Father

Joseph Miller, 84, of Belleville, father of Mrs. John (Sophie) Christoff, 2748 Grand avenue, died at 7 p.m. Monday at the St. Paul's Nursing Home, Belleville, where he had been for two years. He lived here with Mr. and Mrs. Christoff in 1950-51.

## No Seat Shifting Rule For Council

Council members will not be permitted to shift seats at the two tables set up for them in the court room at the city hall where meetings now are being held.

The shifting became a minor issue during Monday night's session of Granite City aldermen when it was noted that Seven Ward alderman C. H. Sternberg had moved to the end of the table at which First, Fourth, Sixth and Seventh Ward aldermen are seated.

First to comment on Sternberg's move was Fifth Warder Steve Basarich, and then Sixth Warder Casmer Skubish protested that he was being crowded and called for a definite seating arrangement to be established. The mayor said a proper seating resolution would be prepared at Skubish's bidding.

## Voter Registration Centers For Weekend

Special centers for Quad-Cityans to register for voting in the April 14 primary election will be open this weekend in the Quad-Cities to supplement the regular registrars.

However, persons who will be 21 years of age on or before April 14 may register now along with those who have had address or name changes. The deadline is March 16.

Special registration centers open this week in the Quad-Cities are on Friday and Saturday at the A&P Market, 20th street and Madison avenue from 3 to 8 p.m. on Friday and 1 to 8 p.m. on Saturday at the West Granite fire station on Cayuga street on Saturday from 1 to 8 p.m.

Rose Turner, 2141 Waterman avenue and Mrs. Elvira Thurber, 1932 State street.

Madison—Mrs. Jewel Young, 909 Franklin avenue; E. J. Miller at the city hall; Dennis Nicholas, 1548 Fourth street, and Mrs. Ida Dint, 1715 Third street.

Mitchell—Mrs. Lois Weeks, 125 East Chain of Rocks road.

Venue—Mrs. Andrew Brown, public library, 325 Broadway, and Mrs. Florine Musick, 600 Lincoln avenue.

## City's General Maintenance Man To Get Monthly Salary

The city's general maintenance man, Delbert Lampher, is to be paid a regular monthly salary of \$516 instead of working an hourly rate, it was explained Monday night's Granite City council session.

An ordinance is to be prepared to create the job, outlining all duties, and setting the salary. It was pointed out that on an hourly basis his pay had topped other city employees and averaged over \$600 a month. His hourly pay was \$3.45 for regular work and \$4.26 when he did nocturnal work.

The work around the city hall and for the fire department, other city departments and on the city dog pound done by Lampher was questioned by Alderman William McGee, who said the position had never been authorized.

**Call For Job Description**  
He called for Lampher to be taken off the payroll effective Feb. 18 until such time as his duties were spelled out and the position approved by the council.

Mayor Davis called upon Comptroller John Dosier to prepare a list of Lampher's jobs. Dosier stressed that the city was paying \$3.75 (actually the rate is \$3.70) an hour for a temporary dog catcher, and that Lampher's chores added the city in not having to call in other craftsmen to do such jobs as repairing a door or broken windows in city buildings.

McGee's motion was completely obliterated by an amendment submitted by Alderman Edmund Bartosik. He motioned for Lampher to be taken off an hourly pay scale and to be paid monthly.

City instead of St. Louis.

In addition to the public terminal operated by Bi-State, the harbor area immediately to the north is to be developed by the Tri-City Regional Port District, which has installed an access road and plans a railroad spur. The Bi-State terminal has both truck and railroad transfer facilities.

Such dry commodities as rock salt make up the majority of barge shipments to this region. Also included are soda ash, fertilizer, sulphur, raw sugar and certain metals and chemicals.

**Heavy Traffic Past Docks**  
Despite ice and low water at some points along the Mississippi River, traffic through the Chain of Rocks canal and locks set a January record last month—1,330,525 tons compared to 1,380,613 in January 1963. The December 1963 total was 1,322,755, and the November figure was 1,268,870.

In contrast, 694,848 tons passed through Locks 27—the only river channel at this point—in January 1964, a decline from 740,000 tons in January 1963.

Upstream freight last month consisted of petroleum products, cement, sand, gravel, iron ore, sulphur, iron and steel products, chemicals and miscellaneous commodities, with the latter including petroleum products, grain, iron, steel, chemicals and commodities.

A new record also was set in 1963, which saw tonnage for the year totaling 29,823,557 tons. January and December freezes, a 1,339,169 increase over 1962. During the year, 45,710 barges passed through the local canal and locks, including 34,032 barges, 6266 towboats, 2238 private recreational boats, 599 contractor vessels and 25 passenger boats. Many more than once due to frequent voyages.

**Huge Shipping Potential**  
Freight movement on inland waterways of the U.S., not counting the Great Lakes, totaled 418,339,108 net tons in 1962, tabulations just completed show. Two-thirds of service amounted to 133,039,653,000.

Compared to 1961, these are increases of 30 million tons or 7.8% and 10 billion ton-miles or 8.3%.

Principal commodities and their tonnage transported in 1962 were petroleum products, 147,741,565; bituminous coal and lignite, 93,074,692; sand, gravel and crushed rock, 52,862,819; unmanufactured sea shells, 21,940,773; logs, 19,729,693; grain and grain products, 11,583,676; iron and steel, 8,363,141; and chemicals, 6,169,149.

**Mississippi Banks First**  
A comparison of tonnages of commodities moved over 11 miles per U.S. inland waterways in 1962 shows the Mississippi River in first place with 91,975,347, the Ohio River second with 85,306,058 and the Gulf Intracoastal Waterway main route, 60,424,304.

Other tonnage totals were: Illinois Waterway, 29,992,511; Monongahela River, 27,782,767; Columbia River, 21,390,674; Tennessee River, 13,115,379; Missouri River, 8,018,809; Gulf

## Kaseberg New Chairman Of Zone Board Of Appeals

Howard Kaseberg, Granite City farmer, was appointed chairman of the zone board of appeals by Harold Landolt, chairman of the county board of supervisors, during a meeting yesterday in Edwardsville.

He succeeds Harry Taake of Troy, whose term expired Tuesday. Landolt also appointed Les Sedlack of Troy to fill the vacancy on the board and named Frank Harsenok of the Alton area as vice-chairman.

**Walve Church Fees**  
During the county board meeting a resolution was ordered to waive building permits for churches and church property in unincorporated areas of the county.

The action was taken after the board was informed that the executive board of the Madison county ministerial association had voted 5 to 2 in favor of the waiver. The majority opinion was based on the comment that churches provide a public service.

Churches that have paid permit fees during the past several years in effect are expected to receive rebates. New church property will continue to be subject to inspection by the county building inspector, however.

**Resolving Disputes**  
A request for a change in zoning by Warren J. Smith from an R-4 residential to a B-1 business classification was denied but a special use permit was granted to construct a business building on a residential zone of Eagle Park Acres. During a hearing, neighbors informed the zoning board of appeals that the structure would be a credit to the area.

The county board approved rezoning of 4300 Nankemok road from an R-3 one-family residence to B-4 wholesale business on the request of the Tri-City Lumber Co. which had sought an M-2 general manufacturing classification.

A petition by Morris Roney to rezone lots 6 and 7 of the Cedar View subdivision at 3710 Ponton road in Nankemok township from an R-3 one-family to a B-4 wholesale business classification was denied.

A petition by James Green for a special use permit to construct a duplex in an R-3 one-family residence classification in the Greenway Village subdivision of Mitchell was cancelled at Green's request.

**Intra-coastal Waterway alternate route**, 622,556; Warren-Tombigbee System, 610,681; Atlantic Intracoastal Waterway, 3,018,729 and Sacramento River, 1,961,994.

Vessels used in transportation of freight on inland waterways as of Dec. 31, 1961, included 4047 towboats and tugs and 16,484 non-self-propelled barges of all types having a cargo capacity of 16,297,534 net tons.

There are 25,360 commercially navigable miles of inland waterways in the U.S. which either have been improved by the federal government and other agencies or are usable without improvements.

# Madison Edges Cahokia To Regain Midwestern Title

NOW, WHERE'D HE COME FROM? Madison's John Summers (left photo) is about to sink a lay-up over surprising Cahokia by driving through the open alley in background. Four Comanches surrounding Summers are Don Karr (43), Tom Stein (45), Mark Catlett (25) and John Catlett (21). At far right is the Trojans' Mike DeYong. Action took place in the second

quarter and tied the score at 22-22. In fourth quarter play (right photo), Cecil Bell of Madison spears a rebound at the Cahokia goal. As he came down, Bell was fouled by the Comanches' Greg Rhodes (33) and he sank the first of seven vital free throws in the period. Others in photo are Cahokia's John Catlett (21) and Madison's Hayes Wright (50).

## Bell's Free Throws In Fourth Quarter Vital In 56-50 Win

Madison's Trojans burst both the basketball and Cahokia's pipe dream of retaining the Midwestern Conference championship in a nip-and-tucker Tuesday night at the MHS gymnasium.

The Trojans speared the Comanches 56-50 to run their Midwestern record to 9-0 and capture their third title in the past four seasons. Cahokia, now 7-2, had won the conference crown for the first time last year with a 61-51 verdict over Madison.

As Coach Earl McClanahan's champs were letting off victory steam after the final buzzer, the basketball was letting out air. The ball was pierced by a hook on the gymnasium wall as a result of John Summers' full-court celebration toss as time expired.

But loss of a basketball was a small price for the championship won without injured sophomore rebound ace Paul Lusk in the lineup. The Trojans filled the gap nicely, outbounding the visitors, 30-15.

As anticipated, it was close all the way. The score was tied eight times and the lead changed hands 10 times, including seven occasions in the fourth quarter.

**Hot On Target**

Madison's Cecil Bell, who missed his first pair of free shots in the second period, made all seven free flips in the last quarter. His final four came in the last 17 seconds to clinch the triumph.

The Trojans outshot the Comanches, 21-17 from the field but trailed in free throws 16-14 as the visitors missed only one foul shot. This accuracy didn't surprise McClanahan.

"They missed their first one, then made 17 straight free throws the first time we play'em (Madison won 58-53). When a team shoots like that you have to be careful," he said. His team did a pretty good job in that respect making only 13 to the previous average of 18.

Dale Turner, the shifty sophomore guard, emerged as the Trojans' top scorer with 18 points, including eight field goals in 11 attempts. Bell had 17 and Summers 11.

Tom Stein, Cahokia's 6-5 brookside standout, specialized in long jump shots from the side and had 17 points, only Comanche in double figures. Madison employed a press, then sank back into a 1-2-2 zone on defense.

**Madison Jumps Ahead**

At the start, it looked like a Madison runaway as the Trojans going ahead by as much as six points (11-5) in the first quarter. But by halftime, Cahokia held a 26-24 edge and stayed in front 40-37 after three periods.

But a goal and a free throw by Turner tied the count at 40-40 as the last stanza opened. The lead bounced back and forth until Bell made two free throws for a 49-48 Madison edge. The Trojans held the lead.

Leading 52-50 after each team scored on free tosses, the Trojans began a stall with one minute left. They ran out 43 seconds before Bell was knocked down in shooting what appeared to be a certain lay-up.

Madison lost the jumper variety contest 57-46. High scorers for Coach Bob Page's squad were Vic McLaughlin (22) and Carl Mary (9).

The Trojans, victorious in their last 11 games and 17-3 overall, try to end their Midwestern season with a perfect record tomorrow night at Bethalto Civic Memorial. Then they warm up for the regional tourney in a game Feb. 28 at Belleville.

Jim Morrison, head football coach at Granite City high school, plans to attend the Saturday session of the annual football clinic scheduled April 17-18 at the University of Illinois.

As track coach, he has a meet on the first day of the clinic but said some of his football assistants may attend that session. Morrison also plans to attend clinics at Northwestern University and the University of Missouri later in the spring.

Headlining the Illinois clinic will be Texas' Darrell Royal and Illinois' Pete Elliott, who finished first and second in 1963's "coach of the year" balloting. They will be joined by high school representatives Rob Fraley of Belleville and Pete Johnson of Sycamore.

## PRESS-RECORD SPORTS

### Ten Warriors Entered

## Mat Sectional Here Saturday

Granite City's Warriors, with more entrants than any of the other 21 schools who qualified wrestlers, try for their 11th straight sectional tournament championship Saturday at the high school gymnasium here.

The first-round session will start at 1 p.m., semifinals at 4 p.m., and third-place and championship bouts at 7:30 p.m.

Coach Bill "Red" Schmitt's Warriors, who won the Wood River district with 126 points, have 10 boys who qualified by finishing first or second.

Two other schools — Edwardsville, second at Wood River with 106 points, and Decatur MacArthur, championship team at the Decatur district with 117 points—have nine entrants each.

"The field appears very well-balanced," Schmitt said. "I doubt if any one team will claim more than three individual championships."

Ninety-six wrestlers are scheduled to compete. The participating schools with the number of individual entries in parentheses are as follows:

**List of Participating Schools**

From the Wood River district—Champion Granite City (10), second-place Edwardsville (9), third-place Wood River (3) and Roxana (2).

From the Carbondale district—Champion Belleville (8), second-place East St. Louis (8), third-place Carbondale (5), Carmi (2) and Murphysboro (1).

From the Jacksonville district—Champion Jacksonville (8), second-place Springfield (3), Lanphier (3), third-place Springfield (3), Quincy (3), Illinois Braille of Jacksonville (1), Springfield (1) and Southwestern of Piasa (1).

From the Decatur district—Champion Decatur MacArthur (9), second-place Decatur (7), third-place Vandalia (4), Decatur Eisenhower (2), Decatur Lakeview (1) and Argenta (1).

Individual winners and runners-up will advance to the state finals Feb. 28-29 at Northwestern University. Evanston, along with qualifiers from six other sectionals and the Chicago Public League.

**Two 1963 Champions Return**

Granite City's Paul Lapinski, 103-pounder, and Lanphier's Julian Gabriel, 154-pounder, are the only two champions returning from last year's sectional.

Three runners-up also are scheduled to be back. They are Gary Forshee, Granite City's 180-pounder, and two East St. Louisans—138-pounder Reggie Coates and heavyweight Levy Reeder. Lapinski had a season record of 21 wins, just one loss and one draw. Forshee's mark is 19-2-2.

Other Warriors entered and their records are: 95 pounds, Mike Reynolds (16-5-1); 112, Steve Cavanaugh (13-4-0); 120, Dan King (15-3-0); 127, Mike Nicholls (12-10-1); 133, Tom Mofsky (18-5-1); 138, Jim Valcoff (11-4-1); 145, Mike Mounce (7-12-0); and heavyweight, John Evenden (18-5-0).

Granite City has won the last 10 sectionals since Wood River won the crown in 1953. Last year, the Warriors had five boys win championships; their lowest number in the 10-year span was one in 1960.

This season, Coach Schmitt's squad posted a 16-1 record in dual meets and has won 200 individual bouts, lost 97 and had 11 draws. The number of losses set a new record, passing last season's 94 setbacks.

**Three Warriors Ailing**

Schmitt reported three of his wrestlers are hampered by injuries. The most serious appears to be a cracked knuckle in King's right hand, suffered in the championship bout of the district last Saturday.

He said Nicholls and Forshee suffered minor knee injuries in Saturday's competition. All three, however, are expected to compete in the sectional.

This will be the 25th annual sectional and the Warriors have taken 19 of the 24 previous championships. In 1957, they went on to finish second in the state tourney—closest the local school has come to snatching the top prize.

Again this season, the 211 schools entered in the state tournament series established a new Illinois State High School Association record. This includes 197 downstate and suburban schools and 14 Chicago public schools. Ten years ago, only 66 downstate and suburban schools entered the 1954 series.

Since the state initiated a new scoring system in 1956, Granite City ranks fifth through the years among all Illinois prep wrestling teams.

## Dillon Paces Lincoln Win Over Worden

Sparked by the best individual scoring effort of their season, the Lincoln Rams edged the Worden Trojans 82-66 in a non-league high school basketball game Tuesday night.

Percy Dillon, 5-10 sophomore baseline stand-out, popped in 29 points on 13 field goals and three free shots to pace the victory.

Dillon, who set the previous season high mark of 26 in the preceding game against Red Bud, has an even 200 points in the Rams' 5-0 season. The latest effort gives him the team scoring lead with a 14.6 average.

Richard Jackson, another sophomore who had 17 points at Worden, moves down to second place with 115 points (13.9) and senior Calvin Dixon is close third with 102 (13.7). Dixon scored 15 Tuesday night.

The Rams held a 42-36 half-time lead and then sprang far ahead by outscoring the Trojans 22-11 in the third quarter. The Worden club, paced by Dillon, dominated in rebounding, 46-23.

Larry Schaefer of Worden matched Dillon's 29 points and teammate Elroy Davis scored 10.

"I saw a small amount of improvement in the game," said Lincoln Coach Sam Lynch. "But I'd like to see quite a bit more before the tournament."

The Rams end their regular season at Cairo Summer tomorrow night and then meet Venice in the district tournament at 7 p.m. next Thursday.

## Tri-Mor's First 300 Fired By Les McIlvoy

A 38-year-old former Granite City, a once-a-week bowler, Tuesday night became the first to roll a 300 game at Tri-Mor Bowl here.

Les McIlvoy, a lifetime resident of Granite City until moving to St. Louis six years ago, fired the perfect game on lanes 13 and 14. He crosses the river every week bowl for the Garling team in the Amvets League. "I don't think I could go through it again," McIlvoy told the Press-Record. "But it was a great thrill."

McIlvoy began bowling 15 years ago and his highest previous game was 276 "about seven or eight years back." He averages 181.

The 300 followed his first game total of 213. After all the excitement, he slipped to 183 for a series of 696.

It was the first 300 at Tri-Mor since the lanes were rebuilt in 1960. Owner Henry Ross said McIlvoy will collect the house reward of \$300 for his effort.

Francis Laux, co-manager, said the American Bowling Congress will check the lanes. McIlvoy used, and if all is okay, he'll likely collect some merchandise awards from the ABC.

### Pro Football Is Big Business And Growing

Football is big business and is still growing. Charles Shay, treasurer of the St. Louis Cardinals since 1959, told the Granite City Rotary Club at its weekly luncheon meeting Tuesday at the YMCA.

The St. Louis organization has 19 employees in addition to the Cardinals contingent, including 40 on trips for games away from home, nearly 50 from the Cardinals contingent, including 40 players.

The office maintains records on all college football players from sophomores on up. In addition, two visits are made yearly to interview players who have shown unusual ability.

We look not only for playing ability, but for spirit and attitude, most of which, we find, comes from their family backgrounds. Since most of our players are weight 250 to 300 pounds, we also must consider whether or not they will be heavy enough for professional ball after they leave school."

Shay took the Rotarians on a "trip" away from home, pointing out the many detailed arrangements that must be made, some far in advance of the game. Playing equipment alone weighs about a ton and a half, he said.

Following his talk, he answered a number of questions and literature describing the National League teams was distributed. Shay was introduced by John Preston, program chairman.

President James Louis announced the appointment of a committee to nominate officers for the next year. Members are Gerald Broadway, chairman; Harold Thomas, E. A. Karandjeff, Dr. E. I. Ackerman, Raymond Ruffer and Louis.

### Dunbar Ends Season With 82-27 Run

Dunbar of Madison slaughtered Landanow 82-27 Tuesday afternoon at East St. Louis to end its season with a 12-1 record. The only loss by Coach Charles McCaskill's eighth graders was to Lovejoy of Brooklyn.

High scorers were Carl Pinkston with 24 points, Martin Griggs 13 and Walter Benton 12.

Ice yachts have been clocked at 140 m.p.h.

## Coolidge Can Win 2 Titles In JHS Meet

Coolidge junior high school has a chance to win both ends of the first in the Granite City seventh and eighth grade basketball tournament. Both its squads won semifinal contests last night at Prather junior high school.

## 270 Attend Bible School Clinic At First Baptist

Over 270 adults and children attended the Madison County Vacation Bible school clinic held Tuesday at First Baptist church, 21st street and Delmar avenue. The adults, who will be the workers in their churches, met in age groups and the children were taken care of by a corps of trained women.

The purpose of the clinic is to prepare for the coming school to be held in all of the Southern Baptist churches and some missions in the county this summer. There are 22 Baptist churches in Madison county and two missions. Last year 25 vacation Bible schools were held and that many are expected again this year, according to an announcement by Rev. George Sagon, pastor of First Church, who is the vacation Bible school superintendent for the county Baptist Association and is in charge of the program Tuesday.

A panel discussion on every phase of vacation Bible school work was conducted by Rev. W. L. Shover of Second Baptist church; with Rev. Ray Atwood of Emmanuel church; Rev. C. Moeller, Grace Church; Rev. W. J. Richardson, superintendent of missions for the county Baptist Association, and others taking part. The sessions began at 9:30 a.m. and were concluded at 2:30 p.m. Rev. Kenneth McDaniel of Madison read the Scripture lesson, Rev. Keith McDaniel of Suburban Baptist led the song service, and Mrs. W. L. Richardson was pianist.

The women of First Baptist church prepared and served the drinks and refreshments. Mrs. Evelyn Davis was chairman of the committee.

## Friday Holiday For City Workers Rejected

A day off Friday to observe George Washington's birthday on Saturday was requested during Monday night's Granite City Council session Monday night and was rejected by the aldermen by a vote of 9 "noes" to 7 "a yes."

The request was submitted by Robert McCormick, president of Local 799, State, County and Municipal Employees Union, who mentioned that similar holidays were sought for the Friday preceding Memorial Day and July 4, which also will be on Saturdays this year.

In a brief debate, the Friday holiday was supported by Alderman Walter Nann, who said industries follow the custom. He was refuted by Alderman Samuel Whitmer, a steel mill worker. The city's agreement with the various unions specifies the holidays but does not provide for an advance observance when they fall on a non-work day.

"We don't have a contract,

## Tot Knows Colors—Ahead Of Lesson

A pre-schooler who is in the park district's class for tiny tots said he was having trouble with his lesson on recognizing colors the other day and was being helped by his third grade brother.

The tot would recite the colors as his brother held up a jar of mustard, a green plant, an orange toy—but he balked when the older youngster held up a bottle of catsup.

"I can't tell you that one," he explained, "cause we haven't learned red yet." He was having trouble with "multi-colors."

Elmer Hurlbut, 2004 Beckwith avenue, obtained a permit for a 26x20-foot frame addition costing \$1500, and Charles Achor Jr., 1672 Second street, plans installation of aluminum siding on a stone at a cost of \$1200.

only a memorandum," Nann argued. "We can do what we want."

It was decided to develop a suitable program when new agreements are decided upon. Nann continued, saying contractors wouldn't want the holiday but that the right belongs to organized labor. Alderman Donald Partney said the city was like contractors—"We'd like to be able to afford it, but we can't."

Voting in favor of the Friday holiday were Nann, Scibish, Bascich, Mrs. Beltnice, Bergfield, Boyd and Dallas. Opposing it were Partney, Rutledge, Whitmer, Bartosik, Johnson, McGee, Moerlen, Sternberg and Thompson.

## GC Police Shooting Range To Be Moved To New Site

Relocation of the Granite City police department's shooting range, now located on the site of the former quarry but lots to property owners along Cedar street, was agreed upon Monday night by the city council who chose the tract along Route 3 where the city's new animal shelter building is located.

Alderman Donald Partney explained the right-of-way for the new Granite City Expressway (Federal Aid Route 151 and designated the Great Riverfront Highway) will take half the building.

It had been discussed to moving the building around to

parallel Poplar street. However, plans are for the city to sell the former quarry but lots to property owners along Cedar street, whose houses will have to be moved because of the new road, which will run along the Granite City Army Depot fence.

The concrete block structure was built several years ago by volunteer labor provided by unions and the police officers. Materials were purchased by the city.

**Traffic Controls To Be Changed**  
A change in traffic regulations at the intersection of Terminal avenue, Garden lane and Victory drive, where there presently is a stop sign to control westbound traffic on Terminal, is to be changed to put the stop on Garden lane.

The proposal was made at Monday night's Granite City council meeting, where it was explained that a utility pole now located in the jog of the roadway is to be relocated to reduce the hazard.

Terminal avenue is on the Illinois Terminal Railroad's former suburban trolley line right-of-way, while Victory drive paralleled the right-of-way which has been abandoned and the rails and ties removed.

**Thieves Get Clothing, Equipment From Auto**  
George Martini, a Phoenix, Ariz., man employed on Army ditches here, reported Monday afternoon to Venice police that his car was broken into between 3 p.m. Thursday and 4 p.m. Friday while parked near the boat landings.

Stolen were the car radio, the battery case, a suit, a sport coat, two pairs of pants, a pair of shoes, two shirts and two sets of underwear.

## 2 GC Firms Bid Low On State Road Work

Two local firms are apparent low bidders for road construction work in Madison and St. Clair counties in bids received by the Illinois Division of Highways this week. Bids for five projects in the two counties totaled \$4,721,100.

The General Construction Co., Granite City, with a bid of \$1,535,441, was apparent low bidder for construction of a separation structure that will carry Township Road 384 over Interstate 70, about four miles south-east of Highland.

R. Dron Electrical Co. Inc., Granite City, made an apparent low bid of \$16,960 to improve a pumping station on Interstate 70 in East St. Louis.

Hoeftken Brothers, Inc., Belleville, submitted a bid of \$1,668,450 for construction of four ramps and about four miles of paving at Illinois Route 137 and Interstate 270 near Mitchell.

### Cuvar To Receive Training

C. E. Cuvar, Maryville road, Granite City, will take a 13-week advanced mechanical training course at the National Cash Register Company's training center in Hartford, Conn., according to P. D. Boatwright, area branch manager. Cuvar is a serviceman for the company.

### Dr. Holt Attends Meet

Dr. Leland H. Holt, 2117 Johnson road, attended the 82nd annual Convention of the Illinois State Veterinary Medical Association this week in Chicago. Over 400 veterinarians attended the convention, which ended yesterday.

## GC Council Doesn't Want Run-off Vote Next Year

Possibility of Granite City staging a run-off vote to narrow competition in the next regular city election was rejected Monday night by city council members.

A request for a committee to study the proposal was presented by Alderman Samuel Whitmer, who pointed out that in the last mayoral election, the mayor won with only 37% of the total vote and that alderman races often were decided by as few as 25% of the voters participating.

He added that the Granite City Junior Chamber of Commerce also was interested in the proposal and would lend a hand in the studies to determine if such a run-off would be possible. A delegation of Jaycees was present.

However, the idea was attacked immediately by Alderman Steve Basarich, who said he didn't want any such experimenting in an election in which he would be running. He noted that none of the members of the study committee suggested by Whitmer—composed of Aldermen Thompson, Dallas and Whitmer—would be up for election next year.

"Try it when you're going to run," Basarich said. He also opposed the idea. He suggested that if the council was planning study groups, money should be devoted to equalize the size of the present wards.

Whitmer became angered at comments by Mayor Davis and Basarich, and stressed that he was only asking for a study committee to be named. The mayor had remarked that it "was hard

to get 37% of the votes." He also agreed with Whitmer that it had been costly.

Several aldermen already had departed when the vote was called for late in the meeting. The roll call showed seven factors in the study group and six were opposed.

Siding with Whitmer were Partney, Johnson, McGee, Moellen, Steinberg and Thompson. Opposed were Skubish, Basarich, Mrs. Beltrine, Bartosik, Bergfield and Boyd.

### Investment, Marriage Rulings Issued By State

Earnings on taxes paid under protest which have been invested are to be paid into the county general fund, Illinois Attorney General William G. Clark has ruled in one of several newly-announced opinions.

Clark has held that a magistrate under the new Judicial Code effective Jan. 1, 1964, may perform marriage ceremonies for which he may collect the statutory fee of \$3, an honorarium for which he need not any longer account to the county.

And magistrates of the circuit court are not entitled to receive pension benefits from the State Employment Retirement System while receiving compensation from the state of Illinois as such magistrates, he has said.

Clark has announced assignment of Assistant Attorney General Fred G. Leach as legal counsel for the Illinois Crime Investigating Commission.

G. V. Pillai, international service chairman of the Malaysian club, writes that he recently had the pleasure of seeing and listening to President Miller and his lady, Ruth, when they were on a visit to Singapore. We had an inter-city meeting on the occasion. We have also had an interesting program of a visit by the New Zealand Rotary Overseas Travel Award Group, consisting of a Rotarian and seven young men who toured our Rotary district and spent two days with us as guests of our club.

The two clubs, along with Granite City Rotarians and more than 11,000 other Rotary clubs in 125 countries, with a membership of more than 544,000 business and professional men, on Sunday, Feb. 23, will observe the 59th anniversary of the founding of Rotary, the oldest of all service clubs. recommended hiring adult crossing guards at the two school crosswalks.

The letter was referred to the Street and Alley committee with instructions for the members to begin talks with the school board on the Coolidge driveway proposal. Later in the meeting, Ford Johnson called for hiring the two crossing guards immediately.

His motion was voted down as other aldermen said the city had agreed to hire only four adult guards this first year, and five now are on duty. It was suggested the 20th and Benton street guard be reassigned, since there is an electric signal there. No action was taken.

Alderman Charles Moerlein challenged the mayor's 30-day appointment of David Johnston as city engineer. He stressed the appointment was irregular, since there was no emergency and the council had not had an opportunity to consider Johnston as city engineer. At the Feb. 3 meeting, the council turned down the mayor's appointment of Johnston as consulting engineer at a salary of \$5000 a year.

"Council Was By Passed"

He added that the appointment by Davis for the role of city engineer was dated Feb. 3, and that there was no need to bypass the council in making the appointment.

"I have a letter from Johnston in which he states that he couldn't get a registered engineer for \$5000 a year, the salary which you (Davis) say will be the pay. We have never had an ordinance giving the duties or setting the salary of a city engineer."

Davis replied that he did not make the decision until Feb. 4 and that he had to fill the vacancy. He added that he was having the city attorney look into the law governing city engineers and until that was completed he would have no further comment.

Moerlein repeated there was no emergency to call for 30-day appointments. "You tried to circumvent the law," he said to the mayor. "He (Johnston) can't assign another man to the job. You can't pay him. No salary has been set."

The mayor replied, "You're right," and dismissed the subject.

Later in the meeting, Alderman G. H. Sternberg called for the appointment of the Street and Alley committee and two other aldermen to advise and interview engineers for the city's motor fuel tax post. The motion was approved, but no action was taken.

**GC Steel Board Sets 35-Cent Dividend**

The regular quarterly 35-cent dividend on a share of common stock was authorized yesterday by the Granite City Steel Co. board of directors meeting here.

The directors noted the firm in 1963 paid out 90% of its earnings, or \$1.40 per share for \$1.55 earned and that the balance left little capital for major improvements, and that dividends were too high a percentage to continue the plant's modernization program. But it was decided to maintain the 35-cent quarterly dividend.

Nicholas P. Freeder, board chairman and president, said the steel market is good and results at the plant had improved for the first quarter of this year.

The 35-cent dividend is payable March 16 to stockholders of record March 2.

**Acree Meadows, 67, Dies Of Brain Hemorrhage**

Acree Lee Meadows, 67, of 2214 Dewey avenue, died at 4 a.m. today at St. Elizabeth Hospital from a brain hemorrhage. He had been in the hospital for four days.

Mr. Meadows, a resident of Granite City for 41 years, moved here from Dover, Tenn. where he was born. He was a foreman in the starch department of Union Starch and Refining Co. when he retired four years ago after working there 31 years. He was a member of Dewey Avenue Methodist Church.

He is survived by his wife, Louella; two brothers, Hays and Carl, both of Dover, Tenn., and a sister, Mrs. Edward (Matie) Hicks, Granite City. An obituary notice is given elsewhere in this issue.

**Werner Youth Reported In Satisfactory Condition**

Fred Werner, six-year-old son of Mr. and Mrs. Charles Werner, 1339 Third street, Madison, is reported in satisfactory condition at the Children's Hospital, St. Louis, where he is a spinal meningitis patient.

The youth, a first grader at Harris school in Madison, was transferred to Children's Hospital from St. Elizabeth Hospital.

other aldermen were named by the mayor.

A report on the Nanreid road project was given by G. H. Sternberg, chairman of the Street and Alley committee, who said that of the 49 parcels of property to be appraised for

right-of-way acquisition by the city 18 had been approved by the state for negotiations and five were under study. City Atty. George Filcoff Jr. said the lawsuit involving Coolidge school property was delaying some of the appraisal work.

Sternberg added that it was the city's appraiser, not the state that was delaying start of the project. In defending the city, Camer Skubich replied that in 1955 he tried to push the project and was told no funds were available. The state has had

funds earmarked for the work for the past two years.

Reporting for the Special Pollution committee, Moerlein said the state's July 1 starting date for construction of a city sewerage treatment plant will be met and that the committee, bond attorney and engineer now is conferring with local industries to determine their plans for use of the plant facilities.

He said an effort is being made to coordinate the completion of the city's plant and the treatment facilities being planned by Granite City Steel Co. for its own use. Moerlein said the committee is endeavoring to get a concrete commitment from the Army Depot on the site for the plant.

The bond attorney also is seeking a financial arrangement which may be used to construct sewers in areas of the city that have no sanitary lines, he reported.

## Clubs Here Observing 59th Year Of Rotary

The Granite City and Madison Rotary clubs observed the 59th anniversary of the founding of Rotary, world-wide service organization of business and professional men, at their meeting this week.

In announcing the anniversary, Presidents James Louis and Lewis Waggoner said Rotary clubs are functioning in 16,000 communities in 125 countries. Tributes are being paid to Rotary's founder, Paul P. Harris, a Chicago lawyer, in many languages, since the 540,000 Rotarians in the world speak about 55 different tongues. The anniversary date is Sunday, Feb. 23.

The Rotary club of Granite City comprises 61 business and professional men of this community who meet once a week for fellowship and to plan their program of service activities. Recent activities of the club included the annual Horse Show as well as a contest among school students to suggest Granite City improvement projects. The 25 Madison Rotarians hold annual snogsgorbs and recently met half the cost of obtaining a Madison police dog.

Under the leadership of Carl P. Miller, of Los Angeles, president of Rotary International, the Rotary clubs everywhere are participating in a program aimed at intensifying efforts to further friendly relations among the people of different nations. One of the programs has been the matching of Rotary districts in different parts of the world as a means of encouraging clubs and Rotarians in linked districts to create and maintain relationships through exchanges of all kinds, including personal visits.

The Granite City Rotary club is matched with the Hong Kong Rotary club with this program. Madison with Johore-Bahru, Malaysia.

Mrs. Jonah Williams is to entertain the auxiliary at her home at its next meeting.

**James Wallace Completes Army Cooking Course**

Wallace, who entered the army in September 1963, attended Venice high school.

# GRANITE CITY PRESS-RECORD

**Efficient Venice Police Work In Capture Of Robbery Suspects**

Located at the eastern terminus of a Mississippi River bridge linking it to St. Louis, Venice is in a position to witness law enforcement efforts on the Missouri side. An example of its willing and efficient response is the capture of two St. Louisians later charged with the armed robbery of a St. Louis county service station operator.

Action by Venice police was so prompt that the suspects were spotted as they descended from the McKinley Bridge, the \$2288 loot still in their possession. The arrest, questioning and investigation had been completed within minutes after the holdup had occurred, without gunplay or injury.

Bridgerton, Mo., authorities described it as "darned good police work," a comment with which Quad-Cities agree.

**Students Physically Fit, Judging By Their Records This Season**

"Happy days are here again," that old election year song, could be sung at local high schools in regard to the progress of their winter athletic seasons. Venice and Madison high schools are winning their conference basketball championships and City and Venice are winning their conference wrestling titles. Only school that has not won a championship this year is Lincoln, which is not in a conference.

It could be that the increased emphasis placed on physical fitness in the last several years is beginning to produce dividends in the Quad-Cities?

**Washington Earned Title Of 'Father Of His Country'**

Passage of time sometimes creates doubt about the exact circumstances of events, since witnesses and often the written records are gone from the scene. No exception was made in the case of the nation, George Washington.

Uncertainty has arisen about the famous tree-cutting and coin-tossing episodes in his career, and now there is further dislocation. His birthday actually coincides with the death of Lincoln, Feb. 12, instead of Feb. 22; the confusion results from a ten-day calendar revision occurring during his lifetime.

But time, fortunately, also can add to the stature of individual greatness. While not perfect in every respect, George Washington is remembered for the high regard of all who cherished liberty. Time and again, he made great personal sacrifices, and it was his farsighted support of unity of the states that led to the civilization we now enjoy.

Commander-in-chief of the first American army, which won the fight for independence, president of the Constitutional convention and first president of the United States, George Washington truly was "first in war, first in peace and first in the hearts of his countrymen."

**Tourist Trade Can Become Big Contributor To Local Economy**

"Illinois Expedition Land" is an appropriate theme for regional tourism promotion activities, since this area is the site of such historic events as the Lewis and Clark expedition.

Selection of an overall theme calls attention to the fact that there are many present and potential tourist attractions in our midst, and also that this area has become a major link in the economy of the Quad-Cities, just as it is now in many communities and states.

Establishment of a wide variety of overnight accommodations and putting this area in a better position to serve the large number of persons on business trips.

While some people enjoy long vacation journeys, many prefer leisure trips limited to several hundred miles, which gives the Quad-Cities an excellent opportunity to compete for tourist business originating in many parts of the midwest, such as Ohio, Indiana, Michigan, Wisconsin, Iowa, Missouri, Arkansas, Tennessee and Kentucky. It is good to see that concentrated efforts are being made to attract it.

You can get something out of going to church, if you stay awake.

Smith, chairman of the soils department of the University of Missouri, Evidently Missouri farmers and gardeners are being urged to plant nutrient content of their soils, to buy new and different kinds of soil amendments which will produce "remarkable results," according to the producer "remarkable results" according to the producers.

Some of the materials contain little of the elements required for plant growth, says Smith. He points out that so-called soil conditions are not regulated by state law which applies to fertilizers. Missouri law, in dealing with fertilizers, classifies it as a product which contains nitrogen, phosphorus or potassium or any other elements essential for plant growth, said Smith.

## Yearly Tax Cycle Has Begun

With assessment totals and tax rates being announced, the annual taxing cycle is building up momentum, culminating in the mailing of tax bills to Quad-City residents this spring.

Property taxes are an old story, but the precise fashion in which they are determined remains somewhat confusing to many home owners.

The long-range trend has been upward. Each year, or so it seems, those whose real estate and personal property have been assessed must dig a little deeper than before. Some may experience decreases this year, however.

Inflation has made itself felt over a period of years, and services by governmental agencies have been added and expanded. Salary raises have become a regular pattern.

In a few instances, wasteful procedures, too-liberal contracts, payroll padding and lack of planning have been a factor, although these practices are regarded as rare and becoming ever rarer as voters show an increasing tax consciousness and demand a "dollar's value for every dollar" collected.

**Division Of Authority**  
 The taxing procedures are complex, and no one public official bears the full authority or responsibility for how high taxes are levied.

Assessments on individual property set nearly a year ago became final during the fall after opportunity was provided for protests and hearings. These valuation figures will be used in spring in extending taxes against each item of property.

Tax levies adopted last summer and in the early fall have been applied against the total assessed value, subject to bond rates will be necessary in order to raise the amounts levied. Limits.

Of course, it is not quite that simple. It is the sum total of all levies, not just the particular individual's assessment, that is applied against the levies to assess the tax rate. So it is important to each family and business not only what it is assessed for, but what other levies are assessed.

Valuations are determined initially by the township assessors and are reviewed and often revised by the County Board of Supervisors. The county supervisor of assessments, who is the county treasurer, also has a voice.

The amounts of levies are set by the township boards of local levies—cities, schools, fire districts, and the county government. It is the county government, or by the public at township meetings.

Computation of rates is carried out automatically by the county auditor, who also determines levies and authorized rate limits.

**SAFEGUARD YOUR HEALTH**  
**A PUBLIC SERVICE OF THE ILLINOIS STATE MEDICAL SOCIETY**

**SMOKERS: BEWARE OF EMPHYSEMA**  
 In addition to lung cancer, emphysema is another health hazard related to their addiction.

Its name, Emphysema, means "blowing out." Your chances of contracting this chronic disease of the lungs are 500% greater than those of your non-smoking friends.

How does smoking cause emphysema? The smoke you inhale may cause you to develop a chronic, coughing attack. This kind of cough can permanently expand the air cells in various parts of your lungs.

Less efficiency  
 When that happens you've got emphysema. Your lungs operate much less efficiently, since the oxygen-rich air no longer can reach your blood. Breathing is faster and so are you.

Your chest may become larger and barrel-shaped. Most important, your lungs will work harder—and this added burden can be dangerous.

There is the chance, too, that he will develop a permanent residence in a location of warm climate for maximum benefit and safety.

More than 15,000 Americans died of emphysema in 1962. Don't cough your way to emphysema.

**Drainage At 23rd, Cleveland Planned For 1964-65 Budget**

Drainage at 23rd street and Cleveland and several other locations in the city, along with the award of a contract to M. H. Wolfe & Sons, Inc., to install a paved street at 23rd and Spaulding streets, were major topics at Monday's meeting of the city council.

The estimated \$33,000 project at 23rd and Cleveland is part of a \$100,000 program for the next year's budget, with the city to finance the drainage. Removal of old curbs and sidewalks on 23rd street between State and Adams streets would be financed through motor vehicle tax.

Third Ward alderman Clyde Boyd and J. D. Bergfield had urged an immediate undertaking of the work by using a \$23,000 balance in the city's special fund for track removal. It was pointed out that on Dec. 2, the council had committed a portion of that amount for sidewalk work in the vicinity of Logan school annex at West 25th street and Missouri avenue.

At 23rd and Cleveland, the city would use a portion of it as a partial payment for a new high machine for the street department.

Boyd withdrew a motion for an immediate undertaking, after it was pointed out the state would not finance the drainage work and that the special fund balance would not cover the cost.

Boyd said the city would finance the drainage work to be included in the 1964-65 budget.

**Spence Told "Offen"**  
 Mrs. Betty Cauden cautioned the council "not to spend the special fund for the drainage work."

The Wolfe Co. bid \$895 on the project for paving a ditch at 23rd and Spaulding streets. The bid was \$1845 by A. H. Seibold Co. and \$2600 by Tom Seibold Co.

Half the cost is to be paid by the subdivision developer.

Alderman Stenberg, chairman of the Finance and Audit Committee, reported he had surveyed Clark avenue between W. 21st and W. 22nd streets, and found that "extremely deep ditches" would be needed and that an underground drainage system would be required to do the job properly.

He reported a meeting was yet to be arranged with interested parties concerning the problem on Smith street, where the city engineer, John Smith, asked the committee for a possible solution to the "dike problem" along Johnson road.

At the end of the meeting, the council approved the dedication of an east-west alley in the 1800 block of 23rd street, between Madison and Grand avenue to permit B. E. Hohl, Inc., to erect a new building. The alley will be vacated by the former alley which was vacated recently by the city.

Two more items of \$7575 for relief and \$1752 for town purposes, and it was reported that the street department had prepared the 1964-65 budget for the street department to be submitted by committee members in the near future.

Further study is to be given a request from a group of Eastern Illinois University, Charleston, students who are requesting permission to paint house numbers on curbs in front of residences in the city, charging the householders a fee.

## Selection Of Hoelscher Is In Finest Tradition Of Civic Achievement Awards

Selection of G. W. "Gus" Hoelscher for the 1963 Civic Achievement Award is in the highest tradition of the annual awards, which have been presented on behalf of the Associated Retailers and Civic Association for the past 15 years.

Associated with the Quad-Cities since the year before the great flood of 1903, Hoelscher has played a major part in the progress and growth of the Quad-City community.

His record with the YMCA, Granite City high school, St. Elizabeth Hospital, scouting, church, planning groups, community fund drives and special "Y" and hospital financial campaigns is nothing less than amazing. Any citizen's civic activities is made difficult by their large volume, and it is interesting to note that many of his positions of leadership were held simultaneously as a tribute to his ability to bear a heavy burden of duties.

Added to the many other honors accorded Hoelscher upon his retirement as manager of the local Manufacturers Association, the Civic Award is a fitting tribute to a record of many decades of service.

**Large Turnout May Herald A Republican Resurgence**

The gathering of 400 at the Madison county Lincoln Day dinner in Granite City may indicate the first signs of a resurgence of interest in the Republican party in this area. We hope so, for a functioning two-party system is vital.

Genuine competition encourages both parties to nominate their best candidates, greatly increasing the likelihood that outstanding public officials will be elected. If the sizeable GOP turnout here is an accurate indication, the local minority party is moving along the long road back toward a contending position.

**Prisoners No Longer Have A Corner On The Digit Market**

It was bound to happen. A resident of Des Moines, Ia., has taken a business firm to be known as the 484-077339 50359 283-1313 515 Co., composed of his social security, zip code, telephone and telephone area code numbers. Robert Hollman, president, said he acted "in a spirit of surrender to the digital dilemma of government and corporations. I have seen the handwriting on the wall, and it's all numbers."

He would purpose of the new firm is to write letters to the federal government and telephone company, poetic justice if we ever heard of it.

**Commendable Ban On Moonlighting**

The Board of Fire and Police Commissioners took a commendable step in banning "moonlighting" by Granite City police. Similar action would be appropriate in regard to firemen.

Such a public policy makes sense in view of the extent of unemployment in this region; it can make jobs available to persons who are currently seeking work. And, elimination of the distractions of a second job along with moonlighting would free from too full a schedule, will help officers be at their best while on duty.

**Farm Column**  
 by IRUMAN W. MAY  
 Madison County Farm Advisor

**FACTS TO CONSIDER IN FEED GRAIN PROGRAM**

There isn't any rule that will tell farmers whether they should use extra feed grain in the 1964 feed grain program.

The most important thing to the individual farmer is how his decision will affect his net farm income.

In addition to the effect on farm income, farmers might consider these factors in deciding whether or not to participate.

1. Participation gives some protection against low market prices and low corn yields.

2. Grain storage must be provided to make use of the selling privileges of the program. Some farmers have enough storage for corn, but not enough for the extra corn they would produce if not under contract.

3. The program may offer financial advantages to the livestock farmer who can net corn at harvest and store it. Livestock farmers will need to budget carefully to determine if this decision is best for them.

4. Other factors, such as reduced land loss, future use, soil fertility maintenance, soil and water conservation and the effect on agriculture and society as a whole, should be considered in making the final decision.

Farmers should carefully work out budgets estimating farm income for participating and for not participating. Farmers can get special budgeting forms at the farm adviser's office for use in making their decisions about the program.

If a farmer's budget shows some advantage in participating and diverting 20% of the base acreage he might also work out a plan to divert 40% of the base acreage. The rate of payment is 50% on all the diverted acreage. ### IF IT'S TOO QUIET—TURN ON THE RADIO

Some of the finest comments that come to us from owners of 1964 Cadillac concern the car's extraordinary quietness of operation.

A Cadillac owner remains comfortably insulated from the distraction and din of the heaviest midtown traffic. And we think that this remarkable characteristic tells a great deal about the quality and goodness of this extraordinary new Cadillac creation.

First of all, it indicates the car's high level of craftsmanship. Every 1964 Cadillac, in fact, now undergoes more than 1400 separate inspections.

It indicates, too, how Cadillac's combination of functional styling, scientific soundproofing and advanced

new suspension have reduced to an almost unbelievable degree the sounds normally associated with travel. And, even more importantly, it speaks of the car's great engineering. Cadillac's dynamic new engine operates with flawless precision, despite its record power. Its new transmissions, both the Hydra-Matic and the Turbo Hydra-Matic, translate that power into smooth, hushed response . . . and combined with exclusive True-Center drive line, virtually eliminate vibration.

If you have not yet driven a 1964 Cadillac, you will find it a most revealing experience. Your dealer will have one ready any time that's convenient. Just let the car's amazing quiet do the talking.

Freezing and thawing temperatures during the winter have caused several thousands of dollars in damage to Granite City streets, it was reported this week by William Warfield, superintendent of streets.

Street beds are breaking up on asphalt and concrete pavements as well as other types of streets, he said, and repairs will begin as soon as weather conditions permit.

He said he has inspected the streets with Ted Cramer of Bituminous Oil Co., East St. Louis, and learned that the problem was general in all area counties.

## Concrete Is Melted At Site Of Depot Sewer Construction

A new process of "concrete lancing," which involves the actual burning of concrete is being carried out near the Granite City Army Depot where a new box pressure sewer line is to replace a present 550-foot section of oval trunk line.

The \$200,000 U. S. Army Corps of Engineers project is being carried out by General Contracting Co. which is leasing the special equipment for concrete lancing.

The process uses a powder dispenser, an apparatus that is fed liquid gas and compressed air and actually looks like a lance.

UNLOADING OPERATIONS ARE KEEPING dockworkers busy at the Bi-State Develop-  
ment Agency's facility here. Except for one 24-hour period, all other docks and most pri-  
vate docks in the Illinois-Missouri Metropolitan area have been closed since Dec. 16 due  
to low water in the Mississippi River. Here a crane unloads a barge of fertilizer at the

local dock, where water depth is 18 feet. The river traffic tieup, which is costing sev-  
eral million dollars, is forcing many shippers to use railroads and truck lines. At present,  
St. Louis officials are urging a survey to investigate what can be done about the situation.

## Legion, Auxiliary Support Veteran Nursing Home Bill

Mrs. Adeline M. Dishong, leg-  
islative chairman of Tri-City  
Unit 113, American Legion Aux-  
iliary, said today that many leg-  
islative matters will be sup-  
ported as approved by the  
American Legion at its 1963  
national convention. "A number  
of these measures are of vital  
interests to members of this  
community as they affect not  
only veterans and their depend-  
ents but many issues which con-  
tribute to the welfare of the  
community," she said.

Enlarged facilities for nursing  
home care for war veterans are  
at present being urged by the  
Legion and Auxiliary. A veterans  
nursing home care bill was ap-  
proved in the House of Repre-  
sentatives in September, and  
hearings on the measure were  
held in the Senate in Novem-  
ber, Mrs. Dishong explained.

"Need for more nursing home  
facilities for the care of veterans  
is urgent. A majority of world  
war I veterans now have  
reached the age of 70 and in-  
creasing thousands are in need

of nursing care," she added. Re-  
cognizing this need, President  
Kennedy by administrative ac-  
tion established a 200-bed pro-  
gram for nursing home care for  
veterans within existing Veter-  
ans Administration facilities.

The American Legion and  
Auxiliary are seeking legislation  
to strengthen the late Presi-  
dent's plan. Major provision of  
the Legion-endorsed bill would:

Authorize the use of an addi-  
tional 2000 VA beds for nursing  
care. Provide for limited care in  
private homes for certain VA pa-  
tients who have received the  
maximum hospital benefits.

Increase aid to State veterans  
homes by providing improvement  
funds on a federal-state match-  
ing basis and by increasing the  
federal contribution for care of  
veterans in state homes from  
\$2.50 to \$3.50 per day.

Extend the completion of the  
bed-occupancy care program to  
keep prospective nursing home  
patients in their own homes as  
long as possible.

## Goodman Named To Tar Company Position Here

man as manager of sales for

pitches.

quarters at Granite City. He is

Wood Preserver's Association,  
the Association of Corrosion En-  
gineers and the Western Rail-  
way Association. He has been  
employed by the company for  
40 years.

In other organization changes,  
W. C. Sandland was named  
manager of sales for enamels  
and cold applications paints,  
and E. L. Mittle was appointed  
sales manager for creosote oil

#### Stocking Change Suggested

### SIU Study May Help Fishermen Hook Bigger Game Fish In Managed Waters

An abundance of small bullheads and crayfish in a lake makes the largemouth bass or channel catfish population grow fat and sleeky, says William M. Lewis, director of Cooperative Fisheries Research at Southern Illinois University, Carbondale.

It's not because the game fish prefer munching on the crayfish and clouds of bullheads that follow a successful hatch, Lewis says. The bass may even prefer small bluegills. But—and it's a big but—the bass can catch the bullheads and crayfish easier than they can the bluegills and it's what they eat, rather than what they want, that adds weight and length to the game fish.

Since their experiments showed bluegills were the hardest food for game fish to catch, Lewis thinks that explains why so many lakes are overpopulated with undersized bluegills while the bass go hungry.

Lewis' conclusions, which may change the stocking program for Illinois lakes and farm ponds, are the result of two years of controlled feeding studies in 18 small ponds located on the Carbondale campus.

This research, which Lewis says establishes small bluegills as the number one forage fish in Illinois, could be one of the most significant finds in recent years, giving the fisherman who fre-

quents managed waters more and bigger game fish to test his skill.

Lewis and his colleagues think fish biologists should consider new practices in initial stocking of new lakes or restocking of cleaned-out lakes. Instead of stocking with bluegills and bass or channel catfish (the practice in recent years) they suggest stocking with mature bluegills and fingerling game fish. The bluegills would spawn and there would be clouds of bullheads fry-ready for eating by the time the game fish had reached predator size. This, Lewis says, would mean maximum growth for the game fish.

IN MEMORY of our beloved brother, HARRY W. RASH, who passed away February 21, 1963. Beside your grave we often stand. Hearts both crushed and sore. But in the gloom the sweet words come, "Not lost, but gone before." God knows how much we miss you. He counts the tears we shed and whispers "He only sleeps. Your loved one is not dead." So we'll be brave my dearest. For when He calls us, we stand All Eternity with you. Sadly missed by his wife, LENA RASH, children, brothers and sisters. 33-2-20.
